CONCLAVE THEME

Bridging Evidence, Innovation &
Integrative Care in Pancreatitis

Padma Shri Vaidya Balendu Prakash

14 March 1959 — 7 August 2026

Founding Organising Secretary

Founder Trustee, Vaidya Chandra Prakash Cancer Research Foundation
Founder, Padaav Speciality Ayurvedic Treatment Centre
Physician to the President of India (Dr K. R. Narayanan)
Padma Shri, 1999 · Pioneer of Evidence-Based Ayurveda & Rasa Shastra

The IPCI initiative is rooted in the work and clinical legacy of Vaidya Balendu Prakash, whose decades of clinical practice and documentation formed the foundation of this pancreatitis programme.

IPCI 2027 seeks to carry this work forward by transforming a large body of clinical experience into a broader platform for scientific discussion, critical evaluation, research collaboration, translational investigation, and evidence generation.

IPCI 2027 closes on 14 March, the day of his birth. This conclave is dedicated to his memory and to the work he leaves for all of us to carry forward.

His contribution was not limited to developing a treatment approach, it included the recognition that clinical observations must be documented, followed over time and subjected to scientific investigation.

The objective is therefore not simply to preserve a legacy, but to build upon it through rigorous scientific inquiry and collaboration.

“Our objective is not merely to preserve Ayurveda but to validate, refine and present it to the world through rigorous scientific standards”

— Vaidya Balendu Prakash

About the Conclave

IPCI 2027 brings together global experts from modern medicine, Ayurveda, research, nutrition, public health and industry to share evidence, experience and innovation for better outcomes in pancreatitis care, a global platform, and a unique learning experience.

**THE FIRST
INTERNATIONAL
SCIENTIFIC CONCLAVE
IN INDIA DEDICATED
EXCLUSIVELY TO
PANCREATITIS**

**One Disease.
One Global Platform.
One Shared Mission**

OUR VISION

To create a collaborative national and international platform that promotes scientific dialogue, clinical learning, innovation, and evidence oriented integrative approaches for pancreatitis care.

KEY THEMES OF THE CONCLAVE

- | | | | |
|--|--|---|--------------------------------------|
| 01 Acute & Chronic Pancreatitis | 02 Nutrition & Lifestyle | 03 Pain & Quality of Life | 04 Translational Research |
| 05 Clinical Documentation & Audit | 06 Pancreatitis-Associated Diabetes | 07 Patient Centered Long Term Care | 08 Future Research Directions |
| 09 Integrative & Evidence Oriented Healthcare | | | |

Why Now?

The next question is no longer only:
"What has been observed?"

- Can these observations be **Independently Validated**?
- Can **treatment protocols** be standardized?
- Can **long-term outcomes** be studied prospectively?
- Can appropriate **patient subgroups** be identified?
- Can **mechanisms of action** be investigated?
- Can findings be **reproduced at other centres**?
- Can clinical observations generate **laboratory hypotheses**?
- Can **multicentre studies** be developed?
- Can real-world clinical data be transformed into **high-quality evidence**?

IPCI is intended to provide the platform for asking and answering these questions.

What IPCI 2027 Seeks to Achieve

- 01 Bring Pancreatitis Experts Together**
An international forum on acute, recurrent, chronic, hereditary and idiopathic pancreatitis, pancreatic insufficiency, complications, and long-term outcomes.
- 02 Promote Evidence-Based Dialogue**
Critical discussion of existing evidence, gaps in evidence, conflicting observations, new hypotheses, and emerging treatment approaches.
- 03 Promote Translational Research**
Connecting clinical observation with laboratory science.
- 04 Strengthen Clinical Research Capacity**
Using the Clinical Audit Fellowship Programme (CAFP) as a model for auditing clinical data for credibility.
- 05 Build Collaborative Research**
Multicentre studies, prospective cohorts, registries, clinical trials, laboratory collaborations, and independent validation.
- 06 Promote Reverse Pharmacology**
Using credible clinical observations to generate pharmacological questions, mechanistic hypotheses, and future therapeutic research.
- 07 Give Patients a Voice**
Patient and caregiver perspectives on recurrent attacks, hospitalization, long-term treatment, quality of life, and disease burden.

The Need for a Multidisciplinary Platform

Pancreatitis is complex and requires expertise from multiple disciplines. IPCI aims to bring together:

Gastroenterologists	Pancreatologists	Surgeons	Endoscopists
Radiologists	Intensivists	Nutrition Specialists	Geneticists
Ayurvedic Physicians	Pharmacologists	Pharmaceutical Scientists	
Biotechnologists	Clinical Researchers	Patients & Caregivers	
Epidemiologists	Data Scientists	Students & Young Investigators	

1997

CLINICAL PROGRAMME
BEGAN

2,800+

PATIENTS IN
DOCUMENTED COHORT

04

COUNTRIES •
INTERNATIONAL BOARD

WHY IPCI 2027?

The need for IPCI has emerged naturally from this journey. The clinical programme has generated:

- | | | | |
|---|--|---|----------------------------------|
| 01 Decades of Clinical experience | 02 A Large Patient Cohort | 03 Long-term follow-up | 04 Ongoing Clinical Audit |
| 05 Published Observational Research | 06 Hereditary Pancreatitis Research | 07 Pharmaceutical Characterization | 08 Epidemiological Data |
| 09 Emerging Translational Research Questions | | | |

THEME FOR THE CONCLAVE

Bridging Evidence, Innovation & Integrative Care in Pancreatitis.

Subject Areas for Submission

Original Research

Clinical Studies

Basic Science

Integrative Medicine

Endoscopy

Imaging

Nutrition

Ayurveda

Artificial Intelligence

Case Series

Reverse Pharmacology

IPCI Awards

STUDENT CATEGORY

- Best Undergraduate Poster • Best Postgraduate Poster
- Best PhD Research Poster • Young Investigator Award

PROFESSIONAL CATEGORY

- Best Clinical Research Poster • Best Basic Science Poster
- IPCI Innovation Award • Sant Prakash Memorial Award
- Best Integrative Medicine Research Poster

WHO SHOULD ATTEND

- Gastroenterologists • GI Surgeons
- Internal Medicine Specialists
- Pediatricians • Endoscopists
- Radiologists • Researchers
- Ayurvedic Physicians • Phd Scholars
- Nutritionists • Medical Students
- Healthcare Professionals • Scientists
- Pharmaceutical Industry
- Allied Health Professionals

IPCI SPOTLIGHT SESSION

The top 10–15 posters selected by the Scientific Committee will be invited for a 5-minute spotlight presentation before international experts, with a recognition certificate awarded to each presenter.

OUR IDENTITY

The Vision Behind Our Mark

Every element of the IPCI 2027 mark is symbolic, chosen to represent the conclave's purpose.

AT THE CENTRE

The pancreas and duodenum, the organ this conclave exists to serve. Placed literally at the heart of the identity.

ONE UNBROKEN LINE

The five discs share a single gradient, no hard edges between them. Research, care and collaboration aren't separate steps. They're one continuous line.

THE CIRCLE OF FIVE

Research

Observation into evidence

Collaboration

Every discipline, one table

Clinical Care

The patient, always the reason

Evidence & Audit

Documentation that earns credibility

Global Reach

One platform, not one centre

THE TAGLINE

Innovate · Partner · Collaborate · Impact

Innovate

New questions asked
of old experience

Partner

Ayurveda and modern
medicine, same evidence

Collaborate

One platform, every
expert

Impact

Better outcomes
for patients

The story of IPCI began with an unexpected clinical observation. It grew through repeated patient experiences. It became a structured clinical programme in 1997 and developed into a large longitudinal patient cohort, generating case reports, observational studies, hereditary pancreatitis research, epidemiological analysis, pharmaceutical characterization and long-term outcome research.

The next step is to strengthen this evidence through systematic clinical audit, translational research, reverse pharmacology and independent collaboration.

IPCI 2027 is planned to create that next step.

A platform where clinical experience meets scientific inquiry — where different disciplines can critically examine evidence, and promising observations become collaborative research questions.

Esteemed Patrons

Dr. Ram Sharma

PATRON - IN - CHIEF · ACADEMIC PATRON

Hon'ble Chancellor & Chairperson, Board of Governors,
UPES, Dehradun, Uttarakhand

Mr. Prem Godha

Executive Chairman,
IPCA Laboratories Ltd,
Mumbai

**Mr. Salim Iqbal
Sherwani**

Former Union Minister,
Government of India

Dr. Sunil Rai

Vice Chancellor,
UPES, Dehradun

Dr. Durgesh Pant

Director General,
UCOST, Uttarakhand

Dr. P.K Prajapati

Director,
AIIA, New Delhi

**Dr. Shivendra
Kumar Kashyap**

GB Pant University of
Agriculture & Technology,
Pantnagar

National Academic Advisory Board

Dr. S. K. Sarin

Gastroenterologist &
Hepatologist, Chancellor,
ILBS, Delhi

Dr. Suversha Khanna

President, Dharamshila
Cancer Foundation & Research
Centre, New Delhi

Mr. Rajiv Kumar

Former Vice Chairman,
NITI Aayog; Chairman,
Pahle India Foundation

Dr. Jyoti Kode

Scientific Officer 'G' &
Former Principal Investigator,
ACTREC, Tata Memorial
Centre, Mumbai

Dr. Sajjan Rajpurohit

Director and Head
Medical, Oncology,
Medanta Hospital

**Dr. G.G.
Gangadharan**

Chairman & CMO,
Ayurvedamritham
Healthcare, Bengaluru

International Advisory Board

**Dr. Asbjørn M.
Drewes**

Aalborg University Hospital,
Denmark

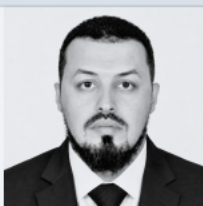

Globally recognized authority in pancreatology,
pain research & neurogastroenterology.

Dr. John Windsor

University of Auckland,
New Zealand

Distinguished pancreatic surgeon and
internationally acclaimed leader in acute
pancreatitis research.

**Dr. Abdulwahab
Hamid**

Associate Consultant,
Gastroenterology & Hepatology,
Hamad Medical Corporation,
Doha Faculty Member, College
of Medicine, Qatar University

Organising Committee

	Mr. Rajiv Gulati Ex President, Ranbaxy Labs; Ex Chairman & MD, Eli Lilly (India)		Dr. C. K. Katiyar Technical Advisor, Emami Ltd, Kolkata; Former Chief Executive Officer, Himalaya Wellness Company		Dr. G. S. Toteja Former Additional Director General (Scientist H), Indian Council of Medical Research (ICMR), New Delhi
	Dr. Siddharth Srivastava Director Professor, Department of Gastroenterology, GB Pant Institute of Postgraduate Medical Education and Research, New Delhi.		Dr. Dhruv Kumar Professor and Cluster Head, Allied Health Sciences, School of Health Sciences and Technology, UPES, Dehradun.		Dr. Anil Sharma PhD – Additional Director, Administration & Monitoring, GB Pant University of Agriculture & Technology, Pantnagar

Organising Secretary

	Vaidya Shikha Prakash Ayurvedic Physician & CEO, Padaav Speciality Ayurvedic Centre
---	--

Registration Fees

CATEGORY	EARLY BIRD	REGULAR	SPOT
Domestic Delegates (INR)			
Undergraduate Students	₹2,000	₹3,000	₹4,000
Postgraduate Students	₹3,000	₹4,000	₹5,000
PhD Scholars / Research Fellows	₹3,500	₹4,500	₹5,500
Faculty / Practitioners	₹6,000	₹7,500	₹9,000
Industry Delegates	₹12,000	₹15,000	₹18,000
Institutional Delegation (5 Delegates)	₹25,000	₹30,000	
International Delegates (USD)			
International Students	\$100	\$125	\$150
International Delegates	\$200	\$250	\$300

Important Dates

Abstract Submission Opens
15 Sep 2026

Abstract Submission Deadline
31 Dec 2026

Early Bird Registration Deadline
31 Dec 2026

Whether you are a clinician, researcher, scientist, healthcare professional, student, patient or caregiver. **IPCI 2027 offers a unique platform to learn, collaborate, exchange ideas, and advance the science and care of pancreatic diseases.**

YOUR REGISTRATION INCLUDES

- Official IPCI Delegate Cap
- IPCI Souvenir Key Ring
- Delegate Kit & Conference Material
- Two Working Lunches
- Four Tea / Snack Sessions
- Net working Dinner
- Participation Certificate
- Access to Scientific Sessions
- Exhibition Access

Poster presentation fees, where applicable, are payable only after abstract acceptance and are separate from conference registration.

Abstract Submission

- 01** You may submit your abstract for review after completing the registration process
- 02** All abstracts will undergo peer review by the Scientific Committee.
- 03** Accepted abstracts will be presented as posters during IPCI 2027.
- 04** Selected posters may be invited for a 5-minute oral presentation before an expert panel.

INTERNATIONAL Pancreatitis CONCLAVE INDIA

One Disease.
One Global Platform.
One Shared Mission

That platform is
IPCI2027

From an incidental clinical discovery to decades of clinical experience, from individual patient stories to systematic research, and from clinical records to a growing evidence-generation programme — the journey now calls for a platform where these observations can be examined, challenged, validated and expanded through collaboration.
